18. TERMS AND CONDITIONS OF RENTAL, MAINTENANCE, AND REPAIR (IF APPLICABLE):

Williams Scotsman Standard Lease Warranty applies. See GSA Schedule for additional terms.

19. TERMS AND CONDITIONS OF INSTALLATION (IF APPLICABLE):

SIN 361 32, Installation and Site Preparation for Pre-engineered and Prefabricated Buildings and Structures

The principal purpose of the Pre-Engineered/Prefabricated Buildings program under Schedule 56 is for the purchase of products meeting the general description of the Special Item Numbers (SIN) within the program. Installation and site preparation services may only be ordered in conjunction with or in support of buildings or structures purchased under this Federal Supply Schedule contract.

Note: This SIN specifically EXCLUDES Architectural Engineering Services (A&E) under the Brooks Architect-Engineers Act as stated in Federal Acquisition Regulation (FAR) Part 36. These services shall be ordered only in accordance with Part 36 and agency procedures, and shall not be included on a GSA contract order as an open market item.

Contractors are responsible for the following when performing services under this SIN:

- Contractors must comply with Construction Clauses and Davis-Bacon Regulations. The clauses shown in Attachment 11 of this solicitation will apply to agency orders placed against the schedule contract.
- Compliance with all local laws, regulations and ordinances are the responsibility of the GSA prime contractor. The prime contractor shall accept full responsibility and liability for all work performed by subcontractors under a resultant contract.
- Contractors shall review the statement of work issued by the ordering agency and provide a separate quote for services to be performed under this SIN based on the ordering agency's statement of work. Should the contractor not be able to meet all requirement(s) in the statement of work, the contractor's quote must specifically identify the items which have not been included in the quoted price.
- Contractors must provide bonding and insurance as required by the ordering agency statement of work.
- Contractors may serve as a Prime contractor and subcontract the installation or site preparation services unless specifically prohibited by the ordering contracting officer. Subcontractors must comply with any licensing and bonding requirements specified in the statement of work.
- The contractor shall be responsible, accountable and liable for all work performed, including work performed by subcontractors (at all tiers), and for ensuring the work performed is completed in accordance with the ordering agencies statement of work.
- The contractor shall ensure all warranties are honored. All construction work must be guaranteed for any defect in workmanship and materials.
- The Government reserves the right to apply liquidated damages whenever the required delivery is not met, in accordance with clause 52.211-12, Liquidated Damages – Construction.
- Sales of the services shall not be combined or reported with the product SIN. Contractors must report sales for installation and site preparation services under SIN 361-32.

When placing orders for services under this SIN, Ordering Agencies are responsible for the following:

- Complying with all Federal Appropriation Laws and ensuring the correct types of funds are obligated on the order.
- When construction, alteration or repair of public buildings or public works is involved for services performed under this SIN, Ordering Agencies must comply and ensure contractor compliance with the Construction Clauses and Davis-Bacon Regulations. See Attachment 11 of the GSA solicitation for a complete listing of the FAR and GSAM clauses incorporated by reference for all schedule contractors awarded this SIN. Ordering agencies shall utilize these clauses as a guideline and must incorporate the applicable clauses into the statement of work. The ordering agency is responsible for including the most current version of these clauses and any other applicable clauses into the order. Clauses which require "fill-ins" must be completed by the ordering agency. Any agency specific clauses which may apply based on agency regulations or requirements must be added and must be cited in the statement of work.
- Defining and issuing the statement of work for installation and site preparation services. It is essential for the ordering agency's statement of work to include an accurate description of the work required and definition of scope to facilitate realistic quotations.
- The statement of work shall clearly inform the contractor of all bonding requirements and any required insurance amounts.
- The ordering agency will provide the local Davis-Bacon wage rates to contractors. Applicable wage determinations will be incorporated into the statement of work.
- Reviewing quotations from schedule contractors to ensure the work proposed meets the statement of work requirements. The ordering agency shall consider only fixed priced quotes.
- Obtaining pricing information from the schedule contractors and making a Best Value Determination as required per the ordering procedures of FAR 8.4
- Making a fair and reasonable price determination for the services to be performed under this SIN based on the quotations received.
- Negotiating the pricing for installation and site preparation services with the schedule contractor on an order-by-order basis, based on the mix of labor and complexity of the installation. Services pricing shall be shown and priced as a separate line item on the order.
- Performance clauses will be modified for each job by the requiring agency.
- Administration of orders issued under this Special Item Number.
- All orders and payments must be made to the schedule contractor.

TERMS AND CONDITIONS FOR GSA CONTRACT # GS-07F-0257M

20. TERMS AND CONDITIONS OF REPAIR PARTS INDICATING DATE OF PARTS PRICE LIST AND ANY DISCOUNTS FROM LIST PRICES (IF APPLICABLE): Not Applicable

20a. TERMS AND CONDITIONS OF FOR ANY OTHER SERVICES (IF APPLICABLE):

SIN 361 30 Ancillary Services related to Pre-Engineered/Prefabricated Buildings and Structures, including but not limited to: Field assembly, training, consultation and design assistance.

The principal purpose of the Pre-Engineered/Prefabricated Buildings program under Schedule 56 is for the purchase of products meeting the general description of the Special Item Numbers (SIN) within the program. Ancillary services may only be ordered in conjunction with or in support of products purchased under this Federal Supply Schedule contract.

Ancillary Service **excludes**:

- Construction (construction is defined as alteration, or repair of buildings, structures, or other real property)
- Architectural Engineering Services (A&E) under the Brooks Architect-Engineers Act as stated in Federal Acquisition Regulation (FAR) Part 36. These services shall be ordered only in accordance with Part 36 and agency procedures, and shall not be included on a GSA contract order as an open market item.
- Personal services.
- Stand-alone services applicable to the Service Contract Act (SCA)

The ordering agency is responsible for defining and issuing the statement of work for ancillary services. Accurate definition of the scope and statement of work is essential to facilitate realistic quotations. The statement of work shall also inform the contractor of any applicable insurance requirements.

- Ordering agencies will obtain pricing information from the schedule contractors, and will negotiate for ancillary services on an order by order basis, based on complexity and level of effort. Ancillary services shall be priced as separate line items on each order. Only fixed priced quotations will be accepted.
- Pricing of services has been determined fair and reasonable by GSA. However, ordering agencies shall make a determination that the price is fair and reasonable and offers the best value to the Government, based on the negotiated amount for the level of effort involved in the requirement.
- Ordering agencies will comply with all appropriation laws and ensure that the correct types of funds are obligated on each order.

Contractor quotations shall specifically detail all products with the contract price and provide a single price for services. Sales of ancillary services shall not be combined or reported with the product SIN.

The GSA contractor may subcontract any ancillary services ordered under this SIN, unless specifically prohibited by the ordering contracting officer. The GSA contractor shall be responsible, accountable and liable for all work performed by any subcontractor and shall honor all warranties. Compliance with all agency, local, state, and Federal laws, regulations, and ordinances is the responsibility of the GSA prime contractor. All orders and payments must be placed with the prime contractor. Reference FAR 8.4 for an explanation of ordering procedures used when purchasing through a Multiple Award Schedule contract.

SIN 361 97 Ancillary Repair and Alterations related to Pre-Engineered/Prefabricated Buildings and Structures Solutions

The principal purpose of the Building Materials program under Schedule 56 is for the purchase of products meeting the general description of the Special Item Numbers (SIN) within the program. Ancillary repair and alteration services shall only be ordered in conjunction with products purchased under this Federal Supply Schedule contract.

All proposed services must be within the scope of SINs on the contract. Furnish a full and detailed description of the services offered and a pricing proposal in accordance with the Services Pricing Proposal, Attachment 10 of the solicitation. A signed and dated acknowledgement of Davis Bacon and Construction clauses and provisions, Attachment 11, must be submitted with an offer for R&A services. Upon award, the contract will specifically state those services accepted under this SIN.

Repair and Alterations are ancillary to existing SINs under this Schedule. Ancillary Repair and Alterations projects are those (1) solely associated with the repair, alteration, delivery or installation of products or services also purchased under this Schedule, and which are (2) routine and non-complex in nature, such as simple concrete work, as routine painting or carpeting, simple hanging of drywall, basic electrical or plumbing work, landscaping, and similar noncomplex services.

The work performed under this SIN shall be associated with existing SINs that are part of this Schedule. Ancillary Repair and Alterations shall not be the primary purpose of the work ordered but be an integral part of the total solution offered. Ancillary repair and alteration services may only be ordered in conjunction with or in support of products or services purchased under the Federal Supply Schedule contract.

This SIN includes all regulatory guidance outlined in accordance with FAR 36, including the Davis Bacon Act and the Miller Act, (Attachment 11).

Special Instructions: No award will be made under 361 97 Ancillary Repair and Alteration unless an offeror is awarded (or receives award concurrently) for another SIN under this Schedule. The Repair and Alteration work must be ancillary (incidental) to the primary services or products offered under the Schedule.

For Federally-owned space managed by GSA's Public Building Service (PBS), approval of the PBS Building Manager must be received by the ordering activity and contractor before any repair and alteration work may be ordered. A copy of the approval must be retained by both the ordering activity contracting officer and the contractor.

TERMS AND CONDITIONS FOR GSA CONTRACT # GS-07F-0257M

Owned or leased space outside the PBS inventory may also include approval requirements. A copy of the approval must be retained by both the ordering activity contracting officer and the MAS contractor performing the R&A services.

This R&A SIN shall not be used for PBS leased space.

Any Agency contracting officer ordering services under this SIN for Ancillary Repair and Alterations is responsible for complying with his or her agency's internal policies when procuring R&A services. This may include a specific warrant delegation for procuring "construction" services when the estimated amount of this portion of the task order exceeds \$2,000 (Ref. FAR 22.4).

Special Notice to Ordering Agencies: GSA or other landlords may require re-performance of any nonconforming work at agency expense. If applicable, agencies may seek appropriate recourse from the contractor responsible for the nonconforming work.

Ancillary Repair and Alteration Service excludes:

- Major or new construction of buildings, roads, parking lots and other facilities
- Complex R&A of entire facilities or significant portions of facilities
- Architectural Engineering Services (A&E) under the Brooks Architect-Engineers Act, Public Law 92-582, as stated in Federal Acquisition Regulation (FAR) Part 36. These services shall be ordered only in accordance with Part 36 and agency procedures, and shall not be included on a GSA contract order as an open market item.
- Personal services.

The ordering agency is responsible for defining and issuing the statement of work for ancillary R&A services. Accurate definition of the scope and statement of work is essential to facilitate realistic quotations. The statement of work shall also inform the contractor of any applicable insurance requirements.

- Contract pricing for labor hours or tasks has been determined fair and reasonable by GSA. However, ordering agencies shall make a determination that the price is fair and reasonable and offers the best value to the Government, based on complexity and the level of effort involved in the requirement.
- Ordering agencies will comply with all appropriation laws and ensure that the correct types of funds are obligated on each order.

Contractor quotations shall specifically detail all products and services with the contract price and provide a single price for services. Sales of ancillary R&A services shall not be combined or reported with the product SIN.

The GSA contractor may subcontract any ancillary services ordered under this SIN, unless specifically prohibited by the ordering contracting officer. The GSA contractor shall be responsible, accountable and liable for all work performed by any subcontractor and shall honor all warranties. Compliance with all agency, local, state, and Federal laws, regulations, and ordinances is the responsibility of the GSA prime contractor. All orders and payments must be placed with the prime contractor.

Reference FAR 8.4 for an explanation of ordering procedures used when purchasing through a Multiple Award Schedule contract.

Schedule Title: 056 Buildings + Building Materials/Industrial Services + Supplies
FSC Group 54- Pre-Engineered and Prefabricated Buildings

FSC Class(es): 5410

SIN	DESCRIPTION
361-10E	Modular/Mobile Office Buildings + accessories/options including but not limited to office and classroom use
361-10G	Guard and Security Buildings/Shacks/Houses/Shelters
361-10H	Restroom and/or Restroom Shower Buildings
361-30	Ancillary Services
361-32	Installation + Site Preparation
361-50	Leasing/Rental of Prefabricated Structures
361-97	Ancillary Repair and Alterations related to Pre-engineered/Prefabricated Buildings and Structures Solutions

Notes:

* Toilet Trailer & Shower Locker sale discount will be based on the total square footage of the unit.

** Basic Installation consists of Dry Stack Blocking or Piers and Pads, Leveling, and seaming of multi-unit buildings. Basic Installation is price for clear, level and accessible sites. Other requirements are beyond this pricing and would be added as open market items. This is an Ancillary service and requires no construction.

*** Tie-downs are **required** in some areas.

**** Site Preparation and Field Assembly services are provided ONLY with, or in support of, prefabricated modules purchased under GSA Contract #GS-07F-0257M

***** Repair and Alterations to prefabricated modules are made ONLY in conjunction with prefabricated modules purchased under GSA Contract #GS-07F-0257M

All added utilities (alarms, sprinklers, etc.) required by codes are not included in above pricing and will be quoted separately if requested.

Based on availability. Larger contracted size may be offered.

Foundations and footings are not included in above pricing.

Pricing is based on delivery location of unit.

Customer is responsible for all permits, licenses, etc. required for installation.
